In her new book, *Not All Step Parents Are Evil Though We Might Be Crazy*, author and stepmother Kim Power shares her humorous and insightful perspective on the challenges, joys, and realities of stepparenting.

Power draws on her own experiences as a stepmother to three children, as well as her work with other stepparents, to offer a refreshingly honest and relatable guide to this often-misunderstood role.

With wit and wisdom, Power tackles the tough questions that stepparents face, such as:

- How do I deal with my stepchildren's resentment or hostility?

- How do I navigate the delicate balance between being a parent and not overstepping my boundaries?
- How do I maintain a positive relationship with my partner while also dealing with the challenges of stepparenting?

Power also shares her own personal stories and anecdotes, offering a glimpse into the real-life ups and downs of stepparenting. She writes about the challenges of blending two families, the joys of watching her stepchildren grow and change, and the importance of self-care for stepparents.
