Carter begins his book by outlining the history of the Israeli-Palestinian conflict. He argues that the conflict is rooted in the Balfour Declaration of 1917, which promised the Jewish people a homeland in Palestine. However, the Balfour Declaration did not take into account the rights of the Palestinian people, who had been living in Palestine for centuries. As a result, the creation of the State of Israel in 1948 led to the displacement of hundreds of thousands of Palestinians.

Carter argues that the Israeli occupation of the West Bank and Gaza Strip is a violation of international law. He also argues that the occupation has created a system of apartheid, in which Palestinians are denied basic rights and freedoms. Carter calls for an end to the occupation and for the establishment of a Palestinian state alongside Israel. He believes that this is the only way to achieve lasting peace between Israelis and Palestinians.

Carter's book is a well-written and persuasive call for peace. He provides a clear and concise history of the Israeli-Palestinian conflict, and he makes a strong case for ending the occupation and establishing a Palestinian state. Carter's book is essential reading for anyone interested in the Israeli-Palestinian conflict, and it is a must-read for anyone who wants to understand the challenges of achieving peace in the Middle East.
